Resintech - innovations in ion exchange

ResinTech Inc., an acknowledged leader in ion exchange, manufactures a broad range of ion exchange resins for water and waste water treatment, including deionization

Tonka water | pur-ix advanced ion exchange

In addition to our conventional ion exchange systems, Tonka Water offers the Pur-IX advanced ion exchange system. The Pur-IX system provides nitrate removal

Ion exchange technology i - theory and materials

Ion-exchange Technology I: Theory and Materials describes the theoretical principles of ion-exchange processes. More specifically, this volume focuses on

Envirogen - ion exchange

Ion Exchange. Ion exchange is a proven, well known technology that has been used commercially in a wide variety of applications for over 50 years.

Ion exchange technology i: theory and materials

Ion Exchange Technology I: Theory and Materials by Dr Inamuddin (Editor), Mohammad Luqman (Editor) starting at \$151.73. Ion Exchange Technology I: Theory and

Ion exchange technology: advances in pollution

Features; Major guide to ion exchange technology for pollution control and prevention. Trace contaminants removal, new materials, desalination, and gaseous pollutants

Ion exchange technology ii - applications | dr

Ion-exchange Technology II: Applications presents an overview of the numerous industrial applications of ion-exchange materials. In particular, this

Ion-exchange technology - environmental expert

Ion-exchange technologies can be used to facilitate systems with processes from simple softening, organic absorption and selective deionization to drastic desalination.

Seawater desalination: boron removal by ion

Ion exchange is the most appropriate technology to remove boron selectively from desalinated seawater. Reverse osmosis, necessary to reduce the salinity of seaw

Ion exchange technology ii - springer

Book Chapter. Pages 337-347. Effect of Temperature, Zinc, and Cadmium Ions on the Removal of Cr(VI) from Aqueous Solution via Ion Exchange with Hydrotalcite

Ion exchange - wikipedia, the free encyclopedia

Ion exchange is an exchange of ions between two electrolytes or between an electrolyte solution and a complex. In most cases the term is used to denote the processes

Guard against contamination & waste | linx water

Innovation ION Exchange. The HE LINX Drinking Water Systems employ an ion exchange process that uses electricity rather than chemicals for operation.

Ion exchange technology - watericon

Water Icon provides a range of ion exchange solutions and services including ion exchanger valves and spare parts, high grade resins & pre-packaged ion exchange

Scitech connect: ion exchange technology

Ion exchange technology This volume contains 75 papers. The role of ion exchange technology in water purification, novel techniques in ion exchange surface

Ion exchange resins, membranes for water

At Ion Exchange, we bring you total environment solutions - water treatment, liquid waste treatment, recycle and solid waste management.
